WHAT IS 'SLAM'?

MINTING

Minting will start for whitelisted wallets on *March 6th* on **slamjokers.com**
Public Sale will happen 2 days after, on *March 8th*.

It's required to use our official website to mint Jokers.

Minting w/ ETH

You will be able to mint with ETH using trusted wallet applications such as MetaMask or Wallet Connect.

You will need to have enough ETH to cover for the minting fee as well as for gas at the time of the transaction.

Presale will take place for **48 hours**. All the whitelisted wallets, qualified SLAM billionaires, raffle winners, selected 10 SLAM diamond hands and team members who are eligible to free mint will be able to mint during this time.

Then, we will kick off the public sale. Follow our discord for the latest announcements.

Minting w/ Other Coins

You will also be able to mint with other cryptocurrencies. Thanks to our innovative pre-fund contracts, you will be able to use **BNB or MATIC** to mint Jokers as well, on their respective chains.

Our mint dashboard has been prepared to make the process as smooth as possible for you.

REVEAL

All the Jokers will look like this until the big reveal on **March 10th**.

During and after the presale & public sale, Jokers will start trading on Opensea.

The Process

Regardless of how many Jokers are minted, big reveal will still happen as planned on March 10th.

8,888 Jokers will be revealed but nobody will know which Joker belongs to who.
Jokers will be randomly assigned by a provably fair method.
